

# We Make Doors

Architectural wood doors that you'd expect from the industry leader

## Calhoun Lofts

Slated to open in the fall of 2009, Calhoun Lofts will provide the University of Houston's graduate and professional students with an affordable, "urban living" experience. Calhoun Lofts are conveniently located near the University's Law Center and the College of Business and will house more than 700 lofts. This 552,000 square foot facility features ground level retail space, a theater room, community room, fitness center, laundry facilities on every floor, a coffee bar and a private courtyard. Efficiency units, as well as one and two bedroom lofts are available and most feature panoramic views of the Houston, Texas skyline. VT Industries manufactured **1,224 Laminate Doors** that featured Wilsonart's White Sand laminate for the space. Door Pro Systems, Inc. of Houston distributed the doors for the project.
