

Product Update

OCT 29, 2009

#P115FSR

Revision 03

Applies to Flush and Stile & Rails doors

CONCEALED VERTICAL ROD EXIT DEVICES WITH THE USE OF METAL CHANNELS

It is VT's goal to provide the best quality products available. Because of this desire, we require 5" legged channels except for Adams Rite 3900 on doors that receive concealed vertical rod exit devices regardless of fire rating, door size, or construction type. This applies to non-rated doors also.
