

Product Update

JUN 30, 2003

#P129F

Revision 02

Applies to Flush doors

THE VT "EDGE" ON HPDL DOORS WITH - 1, -2 & -4 STILE OPTIONS

The same solid hardwood edge found in our 5-ply wood veneer flush doors is now being incorporated into our high pressure decorative laminate doors with wood outer stiles to be finished by others, or factory stained or painted.

This type of construction conceals the crossbands, eliminating finish problems associated with the exposed crossband end-cut.
